Collage with small pictures

Picture size: as identity card pictures → **3,5 × 4,5 cm** (= 1,38 × 1,77 inch) - **600 dpi** - **827 × 1063 Pixel**.

This activity is suitable for a large range of topics. The goal is to visualize the central idea of a topic.

Learners are asked to bring a certain amount of pictures in the size mentioned above. You can choose a topic like "Houses", "Flowers", "Rivers", "Weather", "Earth", ... depending what you intend to do with the collage or for which purpose it is meant.

In the classroom pictures are laid down one by one on a table and mixed all together. Depending of the number of pictures at disposal each learner picks up 3 to 6 pictures (or more when the group is small).

The teacher asks his students to:

- Fill in the empty form given with as many pictures as possible and to fix them to build a collage.
The form could be a ball, a house, a mean of transport, a shoe, a map, etc....., something in relation with the topic of the lesson;
- Not to leave gaps between the pictures.

When the collage is ready, the teacher can use it to continue handling the topic chosen.
