

WHEN I WAS YOUNGER.

I'm the youngest brother of four siblings, three brothers and a sister, so I had a very happy childhood.

I say that because I played with them and we spent a lot of time together, when we went out on holidays and the rest of the year at home or at my grandparents' home.

I have very beautiful memories in my mother's village, when we went to visit my grandparents, and sometimes I stayed there for several days.

When we were on holidays, going camping was a great option for the family, it was very enjoyable for me and my brothers and sister. There were a river and a swimming pool. We had bikes, and it was a lot of fun!

We travelled to different parts of the country as Barcelona, Andorra, Madrid, Toledo and the south of Spain.

In winter we went to see the snow and we played with our sledges and snow balls. It was in my grandparents' village too, because it snowed a lot there.

My parents always tried to give us the best, and this is very hard work, and the best of all is that I think they did it.
